

Extra Large South Dakota Artifact Collection

Saturday, May 6th 10:00AM

Kindred Memorial Building

Kindred, ND 58051

Helbling Auctioneers is pleased to offer this large complete lifetime collection of South Dakota arrowheads & artifacts from a family in Madison, WI.

This massive collection of North American Indian Artifacts was found at various sites on private land along the Missouri River. Highlighting this auction will be one of the largest intact clay pots ever found in South Dakota by Howard and Kathryn Loitwood, formerly of Gettysburg, South Dakota.

There will also be many frames of artifacts found and assembled by William and Edythe George, formerly of Pierre, South Dakota. Complimenting this auction will be a quality South Dakota collection of 20 large frames of Military artifacts found on a private ranch, the scene of a 1876 battle in western South Dakota from the collection of the late Jim Aplan, Piedmont, South Dakota.

This auction will have something for everyone covering all tool types and time periods from Paleo to Historic. As time passes it will be harder to find collections of this quality and volume.

Most of the artifacts are in perfect condition, with many of them being made from gem quality material; including Knife River flint, Agate, Jasper, Plate Chalcedony, Catlinite, Agatized wood, along with shell, brass, iron, bison and deer bone.

**Auction preview Friday May 5th from 4-6 pm.
Mark your calendar and plan now to attend this
auction!**
